Moultonborough Announces 2009 Adopt A Spot Program

While the ground is still covered deep in snow, thoughts of spring flowers are blooming in Moultonborough. The Town has announced that applications for its 2009 Adopt A Spot program are now available. Under the program participants prepare a planting plan for approval and plant and maintain the spot throughout the summer months into early fall. The participants all are given recognition with a nameplate at the spot and there is a judged award at the end of the season.

Last year some nine local business, families, and service clubs beautified prominent public locations by adopting them. The spots were located throughout the community ranging from the Town entry sign at Center Harbor to the larger scale Sutherland Park. All were given certificates of appreciation and the top three spots were given special plaques of recognition, after a judging by local gardeners.

Karel Crawford, Chairman of the Moultonborough Selectmen said, "While the economy may be sagging, one thing never sags in Moultonborough; the community minded volunteer spirit of our people. We received many positive comments last year about the abundant color at these locations which brought joy to many. We can't thank last year's participants enough for their efforts in improving the quality of life in our community and hope they will have some additional company this year."

Applications may be obtained at the Town Offices or on line at www.moultonboroughnh.gov and must be returned by 4 p.m. on Thursday April 9, 2009.
